

Need a speaker?

Call Oregon's Investor Information Program

Our investor information coordinator is available to bring valuable information to your club, class, senior center, or other group at no cost.

As a part of a state agency, the Division of Finance and Corporate Securities provides reliable, non-biased information on popular topics such as these:

\$ Investment Fraud, Schemes & Scams

\$ Securities Arbitration

\$ Investor Alerts

\$ The Savvy Investor Workshop — three parts, about 90 minutes each, with workbooks

\$ Preventing and Resolving Problems with Your Investment Professionals

\$ Mutual Funds: Developing & Balancing Your Portfolio — a two-part video presentation by Dr. Marsha Meyer

\$ Customized programs — money topics that you want to hear about. You can choose a one-hour talk, a question-and-answer session, a video-training presentation, a day-long workshop, or something else. We'll arrange our visit around your schedule.

Through the years, Oregon's Division of Finance and Corporate Securities has learned a lot about money schemes, scams, fraud, and other topics related to investing and protecting your money. We look forward to sharing that information with your group.

Please fill out, stamp and mail this portion for more information.
